ONLINE COURSE

	\$99/seat
	3 hours
	1 or more people

Introduction to Biomimicry Foundational Course

In our engaging, multimedia immersion into the world of biomimicry, participants will gain a bird's-eye view and a fresh perspective on how systems of the world can, do, and should work.

BOOK

	\$95/each
	n/a
	1 or more people

Biomimicry Resource Handbook

The *Biomimicry Resource Handbook: A Seed Bank of Best Practices* contains over 250 pages of our most current biomimicry thinking, methodology, and tools for naturalizing biomimicry into practice.

ON-SITE WORKSHOP

	\$10,000/group
	4–5 hours
	15–30 people

Essential Elements of Biomimicry

This module teaches participants biomimicry basics, introducing key tools and new perspectives. By employing experiential, hands-on learning, the value of biologically-inspired sustainable innovation is highlighted and explored for direct application.

ON-SITE WORKSHOP

	\$10,000/group
	4–5 hours
	15–30 people

(Re)Connect | Biology to Design

This module teaches participants how to find inspiration from nature through observation and discovery. By identifying biological strategies and translating nature's design principles, new ideas for design are developed and honed.

ON-SITE WORKSHOP

	\$10,000/group
	4–5 hours
	15–30 people

Emulate | Challenge to Biology

This module teaches participants how to find biological strategies relevant to specific design challenges. By employing the four phases of Biomimicry Thinking, innovative, novel, and sustainable solutions from nature can be discovered and developed.

ON-SITE WORKSHOP

	\$10,000/group
	4–5 hours
	15–30 people

Ethos | Life's Principles

This module provides participants with an exploration of life's design guidelines for sustainability. These guidelines can be used as aspirational goals, as bio-inspiration, and as an evaluation tool for existing or planned products and services.

Biomimicry Training

A Guide to Learning Biomimicry

PUBLIC WORKSHOP

	\$3,000–\$5,000/participant
	6 days
	1 or more people

Nature's Genius or Biomimicry Thinking

Our public, week-long immersion workshops guided by experienced instructors use hands-on learning experiences to connect participants with a new way of viewing and valuing the genius that surrounds us in the natural world.

PRIVATE WORKSHOP

	\$3,000–\$5,000/participant
	6 days
	15–25 people

Nature's Genius or Biomimicry Thinking

Our private, week-long immersion workshops bring biomimicry inspiration to your organization, where experienced instructors help participants tap into the natural world's genius through hands-on, experiential learning.

ONLINE COURSE

	\$750/credit
	7.5–15 weeks
	1 or more people

Biomimicry courses through ASU The Biomimicry Center

This online program allows participants to choose from 16 biomimicry courses (1–4 credits each), providing customized learning taught by Biomimicry 3.8 faculty without a need for a degree.

ONLINE DEGREE

	\$11,250
	≥ 1 year
	1 or more people

Graduate Certificate through ASU The Biomimicry Center

This 15-credit program, delivered completely online, is designed to enable participants to integrate biomimicry principles and tools into their profession while developing expertise as a biomimic in their discipline.

CERTIFICATION

	\$11,250 + up to \$10,000
	≥ 1 year
	1 or more people

Biomimicry Specialist

This certification program combines the content of the 15-credit ASU Graduate Certificate with two Biomimicry 3.8 immersion workshops, adding the value of field experience, collaborative learning, and peer networking.

ONLINE DEGREE

	\$22,500
	≥ 2 years
	1 or more people

Master of Science through ASU The Biomimicry Center

This part-time, 30-credit MS in Biomimicry is for professionals in the fields of biology, design, business, sustainability, and engineering who want to make the practice of biomimicry central to their careers while transforming how we design our world.

CERTIFICATION

	\$22,500 + \$17,500
	2 years
	1 or more people

Biomimicry Professional

This cohort-based program combines the ASU MS with six week-long immersion courses. Graduates are equipped to make biomimicry central to their organization and their career through leadership development and experiential learning.
